INVITATION

Otofest 2025
20th International
Earcourse Berlin

12 – 14 March 2025

Dear colleagues,

for our 20th Otofest in March 2025 we designed a mixture of lectures, live surgeries, and temporal bone dissection. We are expecting instructors from the USA and Europe demonstrating conventional microscopic as well as endoscopic middle ear surgeries. The temporal bone dissections include single work stations with one specimen for each day.

A social program completes the course in our Capital of Germany. Official meeting language is English. The places are limited! Looking forward to welcome you at the Otofest 2025!

Yours

Parwis Mir-Salim
Direktor der Klinik für Hals-Nasen-Ohrenheilkunde,
Kopf- und Halschirurgie, Plastische Operationen
und Zentrum für Hörimplantate
Vivantes Klinikum im Friedrichshain
